SUMMARY

IT student specializing in web and mobile app development with skills in HTML, CSS, JavaScript, Laravel, PHP, and Flutter. Experienced in RESTful APIs, UI/UX design, and Agile teamwork. Passionate about building scalable applications and delivering innovative digital solutions.

WORK EXPERIENCE

Feb 2024 - Jan 2025

Full-Stack Web Development Intern – Gamelab

- Developed full-stack web applications using PHP, Laravel, MySQL, and JavaScript.
- Built JWT-based authentication system and developed RESTful APIs for secure user access.
- Optimized application performance through code refactoring and automated testing (Jest & Mocha).
- Created a Laundry Management Dashboard with real-time data monitoring.

PROJECTS

Mobile Bakery Ordering App (Academic Project – Individual)

Jan 2023

- Built a full-stack mobile application using Flutter and Android Studio.
- Designed end-to-end features including UI/UX design, ordering workflow, and backend integration.
- Implemented a functional prototype to simulate bakery order and payment flow.
- “Improved ordering efficiency by designing intuitive UI and smooth backend integration.”

Laundry Booking & Management System (Undergraduate Thesis – Individual)

2025

- Developed a full-stack web application using Laravel, PHP, MySQL, HTML, Bootstrap, and JavaScript.
- Designed user-friendly UI with Figma, ensuring responsive layout for customers and admins.
- Built booking system for customers and management dashboard for admins.
- Integrated notifications and payment flow to enhance user experience.
- Enabled 50+ bookings/day and improved admin efficiency with real-time dashboard.

EDUCATION

2021-Present

Telkom University Surabaya

Bachelor of Science in Information Technology

GPA: 3.64 | Expected Graduation: 2025

CERTIFICATION

- Introduction to Cybersecurity – Cisco Networking Academy (2023)
 - Google IT Support – Coursera (2022–2023)
 - Full Stack Web Development – Gamelab (2024)
-

LANGUAGE

- Bahasa Indonesia (Native), English (Advanced – 85%)
-

SKILLS

- **Programming & Web Development:** HTML5, CSS3 (Bootstrap, Tailwind), JavaScript (ES6+), PHP, Laravel, Flutter
